

Fall leaves tissue suncatcher

A BAREFOOT ACTIVITY FOR ALL AGES

This fall, decorate your windows with translucent leaves that let the sun shine through! Using office supplies and tissue paper, work with your family to create a stunning window display perfect for seasonal parties. This activity is inspired by *Skip through the Seasons*, which teaches us about winter, spring, summer, and fall.

WHAT TO FIND

- Templates (included)
- Plastic sheet protectors (or contact paper)
- Tissue paper in fall colors
- Scissors
- Glue
- Tape

WHAT TO DO

1. Print out the downloadable templates. Break open the sheet protectors and apply glue sparingly to one of the inside covers.
2. Tear off pieces of tissue paper and glue them down until you have covered one side. You may need to apply more glue where the tissue paper overlaps.
3. Evenly apply glue to the other inside cover, then fold it over and press down firmly to sandwich the tissue paper. Let dry.
4. Tape leaf templates to the page (Note: You could do this first so you'll see the templates as you lay down the tissue paper). Carefully cut out the leaves. Make smaller leaves with the scraps.
5. Tape the leaves to your window or use string to make a mobile! We'd love to see what you create, so share your photos with us on social media with #barefootbooks!
