

## *Hana's Hundreds of Hijabs* Discussion Guide

In *Hana's Hundreds of Hijabs*, Hana has a huge hijab collection. When her collection gets out of control, she hatches a fabulously fashionable plan! Here are some questions to ask readers:

- 1) How does Hana feel when she wears her hijab? Do you have an item of clothing that you wear for a special reason? How do you feel when you wear it?
- 2) Hana has a huge collection of hijabs. Do you have any collections? What is in them?
- 3) In many religions, people participate in rituals, like prayer, fasting, visiting holy places, eating certain foods or wearing certain clothes. Some Muslim women wear hijab as a meaningful part of their religion. Do you know what it means to wear or do something for religious reasons? What are some examples?
- 4) Hana shows something important about who she is by wearing hijab. She also expresses her creativity and shows her personal style by choosing and accessorizing her hijabs. How do you like to express yourself? (Examples might be creating songs, drawing or wearing a special hairstyle.)
- 5) When Hana is at her Auntie Huda's hair salon, her auntie says, "Helping people feel their best is its own kind of magic." What do you think she means by this?
- 6) Hana creates a service where she uses her styling skills to help other people. What skills do you have that you could use to help other people?
